Football Champions Meet Tomorrow

This evening at the Edmonton exhibition grounds the Edmonton Caldonians and the Strathcona City Football Teams meet in a modern death game in the Bennett trophy series. Both teams have been practising faithfully for this contest, so a fair raising game should result. It is stated that the Caldies will have on their line up a couple of the V. M. C. A. players, and in that case will indeed have a very formidable aggregation.

It is expected that Mr. A. Bennett, of Calgary, the donor of the trophy, will be present and referee the game. If he should not be able to get there Mr. Dan Smith of Edmonton, will be the official in charge.

End of Kentucky Feud

Frankfort, Ky., June 15.—After announcing the pardon of Capt. Powers and James Howell, Governor Wilson closed last chapter of one of Kentucky's noted criminal cases in which the people of all sections of the United States have formally expressed their interest by signing petitions for pardon.

In closing days of January, eight years ago, while the contest for William Goedel for the Gatemouth seat occupied by Wm. S. Taylor was being heard, Goedel was shot, dying later from his wounds. The shot was believed to have come from a half open window in the Secretary of State's office, and as Capt. Powers was then Secretary of State, suspicion then fell upon him and his arrest followed.

Four times has Powers been put on trial for his life on the charge of complicity in murder. The first three trials resulted in conviction and of death being the penalty in two trials. On the fourth trial, which came after the case had been carried to the U. S. Court, and had finally been appealed back to the supreme court which turned it over to the state courts, the jury disagreed and therupon the efforts for pardon for Powers, as well as for James Howell, who had been convicted eight years ago on a charge of complicity were renewed.

By thousands the signatures of people of all parties and sections were appended to the petitions that poured in on Governor Wilson, who for several weeks has been considering the case. His decision was made known today in the shape of a formal statement of the pardon, and his reasons thereto, which he gave to the press at once.

CANADIAN JUDGE REPRESENTS BRITAIN.

Ottawa, June 15.—Sir Chas. Fitzpatrick, chief justice of the supreme court, has been nominated by his appointment to the imperial government to succeed Major-General Sir A. J. Ardash as one of the four British representatives of Britain on the permanent board of arbitration at The Hague to settle international disputes.

Some time ago, in the ratifying of the appointment of Sir Charles as a joint representative of Canada, New Zealand and Britain on The Hague tribunal to adjudicate on matters in dispute with the States with regard to Atlantic fisheries, the British government suggested Fitzpatrick's appointment as successor to Ardash.

This is naturally gratifying to Canada, as being a significant recognition of Canada's partnership in the affairs of the empire.

In view of the fact that the U.S. senate adjourned last month without mission to The Hague tribunal, the majority of the power plants will probably not be stopped again in the next generation.

Chinese Act Introduced

Ottawa June 15.—After the passage of an act establishing the Yukon electric council, Hon. Mr. McRae moved the second reading of an act to amend the Chinese act. The main feature of this amendment is to give the government power to imprison and deport Chinese who do not pay head tax. It has been found that under the present act there is no way of punishing or sending out of this country a Chinaman who has been able to evade the officials and reach the interior of the country. The Bill was reported.

Hon. Wm. Templeman was next to the front with his propitiatory and patient medicine bill. This measure is designed to restrict the use of alcohol and cocaine and other dangerous drugs in patent medicines but any medicine of which the prescription is published on the label is exempted from its provisions. After receiving a second reading the bill was sent to a special committee composed of Hon. Mr. Templeman, G. H. McIntyre, (Perth) Drs Sprout, Belcher, and Chisholm (Barrie). A similar bill was introduced last session in a more radical form but did not get far on its legislative way. The present one, the minister said, is almost entirely satisfactory to proprietary medicine men.

Hon. S. Fisher then proceeded with an act to amend the inspection and sale act, which deals chiefly with cheese and fruits. The chief new features are the increase of penalties for the false marking of fruits and the prohibition of placing in any cheese any foreign substance. The penalties for marking met with much criticism with the result that Mr. Fisher consented to them being cut in two.

NIAGARA UNHARNESSED

Niagara Falls, June 15.—For five full hours yesterday the American Niagara piled over the cataract as free and unhampered as it did the day it was discovered. The power house on the American side of the river capped their wheel pits and the mile and a half tunnel that carries the bolt of water after it has turned the turbines and generators, ran dry. The plants were closed down to allow the divers to inspect the American abutment of the upper steel arch bridge at the mouth of the tunnel. In the last ten years a concrete wall two and a half feet thick has been battered down and attempts to replace retarding wall have been frustrated by the current. The divers today found the abutments of the bridge solid, and safe in every way, with the exception that the granite wall of one of the piers had been undermined. It will probably be built, although the bridge is in no danger.

Engineers of the United States government, under the direction of Major Kutz of the Taft Commission, took measurements of the river while the water was unhampered, and the test showed that not enough water is diverted from the American cataract to make it noticeable. A rise of one-tenth of an inch was noted.

While the American plants were closed 175,000 horse power was shifted to the Canadian plants. The majority of the power plants will probably not be stopped again in the next generation.

This is naturally gratifying to Canada, as being a significant recognition of Canada's partnership in the affairs of the empire.

Litigation Against City of Edmonton

Former Commissioner Pace is going to sue the city of Edmonton as a result of his dismissal. A letter from his lawyer, Mr. Wallbridge, was read at the committee meeting of the council last night. Mr. Wallbridge, after explaining that he would have written earlier but for his belief that in common justice the city would have taken some steps to compensate Mr. Pace for his dismissal without notice and in so unusual a manner, and after an enquiry where he was present adds: "Unless suitable compensation is offered my client I shall advise immediate action for damages."

"This is a mistaken idea, that these gentlemen were not present when this investigation was going on," said Mayor McHugh. "There were many until the report was being made up. The only times they were not present the investigation was on official documents that could not be denied. They were told each an official copy of the report several days before it was submitted to the council."

"I have discussed the matter with Mr. Brown regarding our obligation for the usual monthly salaries which in most cases is allowed. I was going to recommend, before the next month's salaries are paid, that this gentleman be granted this month's salary, but of course, if they are going to sue the city for damages, I certainly would not recommend it."

It is also reported that Mr. Brown who built the Isolation hospital is to enter an action for damages against alleged libelous statements made at the city of Edmonton for certain alleged libelous statements made at a recent meeting of the City Council and which Mr. Beaton takes to reflect upon his skill and workmanship.

Mr. Beaton claims that he followed the claims and specifications given him, and if there was anything wrong with them it was not his fault, and he does not think he should be libelled for a matter in which other people, or me, may be clearly at fault.

If this report is correct, it will make three possible suits against the city, all arising from the action of the council in dismissing the Commissioners and Engineer Keeley. Mr. Keeley is suing for \$30,000; Commissioner Pace will also probably claim a like amount, and Mr. Beaton, it is said, will sue for \$35,000.

EDMONTON'S ASSESSMENT.

The total net municipal assessment of the City of Edmonton for the year 1908 is \$2,543,370, as compared with \$2,198,700 last year.

These figures were given to the members of the city council by City Assessor McMillan last night. The assessment on land is \$2,093,910, exemptions under the charter of \$100,080, leaving the net ready assessment at \$193,930.

The assessment on buildings is \$2,699,930 and the income assessment \$247,560. Of the total \$2,821,530 is assessed against public school supporters and \$2,330,000 against separate school supporters.

REVOLT IN MOROCCO.

Tangier, Morocco, June 15.—Details of a revolt of 4,000 troops of Sultan Alia's army at Kasbah El Wad have been received here. The troops were going to Tangier to Rabat when the army of one of the leaders of Moulai Hafid's harem with letters ordering the army to Fez to join Moulai Hafid, the usurping Sultan, the soldiers defied the protests of their officers and joined and proclaimed Moulai Hafid as Sultan. The officers were made prisoners.

Prince Rupert Labor) and

Prince Rupert, B.C., June 15.—Continued fine weather during last week greatly facilitated progress in every branch of construction work of G. T. P. from Prince Rupert eastwards; and while the contracts have not all been signed it may be stated that Foley, Welch & Stewart have sublet all of their roof and contract with the exception of about fifteen miles north of Gravely point.

The Prince Rupert Construction Co. of Kaleden (Dan Stewart) has two miles above Telegraph point and Fred Peterson has three miles above Gravely point, 70 miles east of Prince Rupert.

In addition to grading contracts, four miles of road on the west side McDonald & Perry have given six miles of right-of-way cleared commencing at a station eight miles east and Dudley Bros. four miles from Aberdeen east. A Ross also has a clearing contract above Aberdeen.

The steamer California made two trips during the week between Prince Rupert and Telegraph point with supplies and construction material for the different camps along the route.

She carried 80 men each trip who had been hired here to work for the sub-contractors.

Conditions have materially changed in labor circles during the past ten days, and there are now practically no idle men in town. Men know how to do station work should now come to Prince Rupert, where there is one hundred miles of railway graded, most of which can be done by station men to good advantage, as it is considered fairly heavy rock work. Six new camps have been established during the week, and lumber for more already ordered. Q. B. L. McDonald, superintendent of construction says that the contractors who have made a beginning are getting along as well as possible.

Three days have been made in the wharf in Foley, Welch & Stewart's port, so that work now may be launched quickly at any stage of the tide, and the wharves are well stocked with supplies. So it may be summed up that in two months from the date of arrival Prince Rupert of the first grading outfit, the whole of the first hundred miles of the Grand Trunk Pacific railway east of Prince Rupert is either sublet or portioned out; the largest contractors supply house on the Pacific Coast has been built; powerful magazines erected; transportation facilities provided, and hundreds of men given employment at fair wages.

FATAL ACCIDENT.

Calgary, June 15.—William Xavier, a young farmer, in the Sheep River district, met with an accident Saturday afternoon, that proved fatal.

The unfortunate young man, who is only 21 years of age, had been leading his team and his team becoming frightened by the approaching storm, ran away. The deceased, who was on top of the load lost his balance and fell to the ground, one of the wheels striking him such a severe blow on the head that hemorrhage of the brain set in.

The funeral took place at 11 a.m. from St. Mary's church to the Roman Catholic cemetery. The funeral arrangements were directed by A. M. Slaver's undertaking establishment.

SHRINERS MEET.

Calgary, June 15.—The shriners are meeting again in Calgary, and all those versed in the mysteries of masonry will appreciate the dignity of the present session. It is necessary for a man to be a 3rd degree master or a 32nd degree in order to be called a shrinel. The sessions have been bringing in numbers from all parts of the province.

News From The Military Camp

Galligan-Lauder Bout Stopped

Calgary, June 16.—The Chief of Police stopped the boxing contest last night between Billy Launder and Joe Galligan the Chicago lightweight in the third round.

The Edmonton Fair

Fairs are in the air just now and for three weeks from the 23rd of this month people will be talking fair. On June 23rd the Edmonton Annual Exhibition opens and will continue on June 24th, 25th, 26th. The official programme has now been published and is as follows:

Tuesday, June 23rd.

Official Opening by Hon. G. H. V. Bayley, Lieut.-Governor of Alberta.

Stock Judging at 11 a.m.

Horse Racing at 2 p.m.

Driving Club Races and other attractions in the evening.

Wednesday, June 24th.

Stock Judging at 10 a.m.

Horse Racing at 2 p.m.

Driving Club Races and other attractions in the evening.

Thursday, June 25th.

Stock Judging at 10 a.m.

Horse Racing at 2 p.m.

Driving Club Races and other attractions in the evening.

Friday, June 26th.

Stock Parade, led by the Band at 1 p.m.

Horse Racing at 2 p.m.

Driving Club Races and other attractions in the evening.

The following are the Directors in charge of the different classes:

Horses, Heavy ... J. B. Lubbock

Horses, Light ... R. M. Maitson

Cattle ... Thos. Daly

Sheep and Swine ... Thos. Daly

Race Track and Race Stables ... D. R. Stewart

Privileges... A. B. Campbell, H. R. Mountfield

Grounds ... C. Anderson, T. Isham

Police ... J. B. Lubbock

Police ... Geo. Daniels

JUMPING COMPETITION.

A jumping competition has been arranged for Edmonton Exhibition under the charge of J. C. Brunner and Dr. C. W. Wilson. The following is the programme:—

FIRST, SECOND AND THIRD DAYS.

Land Jump—Over two brush hurdles 3 feet 6 inches high and 10 feet apart. For points.

Timber Jump—feet 6 inches. For style.

Prizes \$25 and \$15

Water Jump—Over 3 feet 6 inches brush hurdle and a 5 feet ditch.

Prizes \$25 and \$15

FOURTH DAY.

High Jump—Starting at 3 feet.

Prizes \$50 and \$30.

PREPARED FOR REVOLUTION

City of Mexico, June 15.—President Diaz expects that the effects of the New York Legislature in passing the anti-slavery bills will result in an increase of American racing stables in France, particularly as it is believed that other states are likely to follow the lead of New York. American bred horses are eligible in France only for jumping races therefore if American horse owners intend to transfer their stables to France it will be necessary for them to import brood mares whose progeny will be eligible for both jumping and flat races.

There will be no room in France however, for the American bookmakers, as the betting in this country is entirely on the mutual system and under the supervision of the state.

The return of the troops, it is declared, means the doom of "Free Cuba" for ever."

It is to bring about these conditions that the secret revolution fund is literally subscribed to by foreigners of all nations.

CURRENT COMMENT

We understand that the Editor of the Bulletin is at present in Ottawa. The hand of other members of the staff is visible in the Editorials. It is as General Wade built roads through the Highlands. Jams against almost impossible odds. We would fancy for unmountable difficulties. Sure instance the article which described various and sundry are not the government as not being in the only incentives to road building. Can "Sunday School Business" as being a legitimate government doing nothing? What roads would mean to the farm people who are the backbone of this country? Yesterday there is another editorial which after many guesses we attribute to Philip Wagner. There is a strong Teutonic ring in it. Our good King Edward VII is described as a Teuton. We scarcely think the King would relish the compliment as both he and his reverend mother Queen Victoria were always extremely proud of the Saxon blood in their veins. We may also remind the Bulletin's Teutonic Trumpeter that there are a considerable number of people distributed over North America who trace their race back to the grey islands nestling in the northern seas. The Bulletin may be right and "the two races that will ultimately rule the earth" may be the Teuton and the Saxon. Personally we are inclined to think somewhat highly of the descendants of the Anglo-Saxon race which may be "Saxon and Dane and Norman" and with some emphasis Celtic but cannot be classed as Teutonic.

WANTED — A ROMAN INVASION.

It is the fashion of the Twentieth Century to say that we are a very fine type of people now-a-days infinitely superior to any of the ancients. We are "heirs of all the ages" and so on. This is a question of very considerable magnitude and in passing from the general to the particular we would only casually remark that many of the great arts known to the ancients seem to have been forgotten in various parts of the world. Nearly three years ago there was an invasion of the Northern part of Europe and the British Isles by the Romans. The Romans knew the art of building roads and to the present day those roads remain hard and sound a tribute to their constructive genius. There is one road we are well acquainted with in the Old Country. It is known as the Great North Road and runs from London to York and Carlisle and the southern part of Scotland. So perfectly has this road been made that it rarely requires any but the most superficial attendance and has to this day the finest surface in the world. When we comment on the roads in the West we have heard old timers become rather snappy. "The country is only being opened up wait till it has been long opened up as Eastern Canada or the Old Country and then you can talk." Our reply is that the Romans in a hostile country with engineering difficulties through hilly regions that are not to be found in these parts established in a few years roads which are the wonder of the world after 2,000 years. Surely the pioneering Canadian would not like it to be thought that compared with the Roman (the Italian that many Canadians despise) the Canadian as a road builder cuts no ice. The roads in this neighbourhood are not built by courtesy. The wheats cut deep into the rich black prairie loam. Ploughing required the bottom of the Roman roads but gravel and stone is to be found in far closer proximity than the Roman frequently found their flints. Though it were a thousand years Alberta will never have roads until the foundations are made of gravel and stone. Alberta's loan will grow No. 1 hard but as a road making material it is

a rank failure. Let the Provincial government and our Civic authorities take hold of this problem with the energy the Romans exerted in the end of the General who was to be seen throughout the rebellion of 1745 or so. General Wade built roads through the Highlands. Jams against almost impossible odds. We would fancy for unmountable difficulties. Sure instance the article which described various and sundry are not the government as not being in the only incentives to road building. Can "Sunday School Business" as being a legitimate government doing nothing? What roads would mean to the farm people who are the backbone of this country?

— W. H. WAGNER, Telegram to the Winnipeg Free Press:

"The Free Press suggests that this is a fine opportunity for the party to reorganize and start afresh. It certainly ought to feel somewhat chastened after its recent experiences but after it has again been tried out in the fiery furnace of a general election what is left will be in a much better position to start on the road of a new and more godly life."

The punishment has been already pretty severe no doubt. It is but a foretaste of what is coming. The great body of the Liberal party responsible for its present condition is that which has to do with the federal government at Ottawa. The Ontario section had sine and faults of its own no doubt but part of its punishment was to be sent to the Ottawa lepers. What it wants more than anything else is a thorough cleaning out at top."

NOT LIKE THE G. T. P.

(Winnipeg Telegram)

As was anticipated, Conservative criticism of the plan proposed by the Laurier government for the construction of Hudson's Bay Railway was being countered by the government organs into opposition to the building of the said itself.

This is a stale and rusty trick which will deceive no one. The Conservative party is pledged to the immediate construction of the Hudson's Bay Railway and the pledge of the Conservative party in opposition means the fulfillment of that pledge when in power.

It is hard for any modern, up-to-date Liberal to understand this. They have never even pretended to keep a promise or fulfil a pledge. When in power they have repudiated every anti-election pledge they ever made and stultified themselves by the abandonment of every principle they once professed.

The Conservative party means what it says. It will build the Hudson's Bay railway for the benefit of the people and it will build it without graft and extravagance so that the carrying charges can be reduced to the lowest possible point. There will be no huge election contribution taken out of the money charged against the road and upon which interest will under the Liberal program be paid as a perpetual charge upon the carrying rates.

Neither the government nor its opponents will be permitted to dodge the issue in this way. The short grain route to Europe is a necessity for the further development of the West. It is to be built at the earliest practicable date but the people who look forward to receiving such substantial benefits from the enterprise don't propose to have it loaded down from the very outset with a huge debt to provide graft and baffle for campaign purposes.

OBJECTS OF GERMAN NAVY.

Danzig, June 15.—The eighth annual convention of the German Navy league opened here to-day. The provincial president on behalf of the government emphasized the government's wish that the league preserve an independent existence. It must express the wish of the German people not those of the government. A telegram of homage sent to the emperor said that the league would follow unwaveringly the path of upholding the fatherland with effect which would be able to guarantee the empire that protection which it desired. Prince von Salinburg was re-elected president.

PILEs get immediate relief from Dr. Shoop's Magic Ointment.

To stop any pain anywhere in 20 minutes simply take just one of Dr. Shoop's Pink Pain Tablets. Pain marks man's congestion—stodged pressure—that is Dr. Shoop's Headache—or "Pink One" feels dull and spiritless, in spring or early summer, they call it "Spring Fever." But there is 10 fever—usually. It is the after-effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to health in a day or two, but it will do enough in 48 hours to satisfy you that "there is reaching the magic spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve restorative. It stimulates, strengthens appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all dealers.

Office over Penny Arcade

The Conservative Platform

As Enunciated at Halifax and Other Places by Mr. R. L. Borden, Leader of His Majesty's Loyal Opposition in the House of Commons.

1. Honest appropriation and expenditure of public moneys in the public interest.

2. Appointment of public officials upon consideration of capacity and personal character and not of party service alone.

3. More effective provisions to punish bribery and fraud at elections, to ensure thorough investigation of expenses by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite hearing of election petitions and to prevent collusive arrangements for the withdrawal or compromise thereof, to provide for a thorough investigation to corrupt practices and if necessary to appoint an independent prosecuting officer to enforce the laws so amended.

4. A thorough and complete reformation of the laws relating to the Civil Service so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination.

5. Such reform in the selecting of members of the Senate as will make that chamber a more useful and representative body.

6. A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bounty system except under very special circumstances and for the purpose of obtaining particularly desirable classes of immigrants.

7. The management and development of the public domain in which to be included great national franchises for the public benefit and under such conditions that a respectable proportion of the increment of value arising therefrom shall inure to the people.

8. The operation and management of our government railways by an independent commission, free from partisan control or influence.

9. Development and improvement of our national waterways the equipment of national ports, the improvement of transportation facilities and subsequent reduction of freight rates between the place of production and market, whether at home or abroad and the establishment of a thorough system of cold storage.

10. The reorganization of the present railway commission as a public utility commission with wider power and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.

11. The establishment after due investigation of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises.

12. The improvement of existing postal facilities, especially in newly developed portions of the country, and inauguration, after proper inquiry as to cost, of a system of free rural mail delivery.

13. A fiscal policy which will promote the production within Canada of all useful articles that can be advantageously manufactured from or by means of natural resources, having due regard to the interests of the consumer as well as to the just claims of our wage-earning population.

14. The promotion by negotiation and other constitutional means of a system of mutual preferential trade within the Empire.

15. The restoration of the public lands to the Provinces of Alberta and Saskatchewan upon fair terms.

16. The unimpeded maintenance of all powers of self-government which have been conferred upon the Provinces of Canada under the constitution.

Duncan's Condition Powders

FOR HORSES, CATTLE, SHEEP, BOGS.

On horses it acts marvellously; it gives them a fine glossy coat. These hogs hide a healthy appearance and purifies the blood; even during hard work they gain flesh and spirit. It cannot be equalled for building up broken down horses that are out of sorts and making them sleek, fat and high spirited.

Take None Other—There Is None Just as Good.

Ask your druggist for Duncan's Condition Powder, for Horses, etc. Prepared by.

To Our Readers

The Chronicle would esteem it a favour to receive any items of local news, social, general or personal. It is always anxious to give publicity to little incidents likely to be of interest and not calculated to injure feelings or cause unpleasantness.

Around the City

The Annual Sandy Lake school picnic and sport will be held at Elliot's Beach on Friday next, June 19th.

Petitions as to the construction of extra crossings are being circulated. They are badly needed.

The Annual Picnic of the Clover Bay Sunday School will be held in the grounds opposite Sid Ottewill's farm Thursday next.

The lawn social under the auspices of the Christian Endeavor Society of the Presbyterian Church to be held at the residence of R. B. Douglas has been postponed from Thursday to Friday night.

The alteration in the hour of arrival of the late train is far from satisfactory to the hotel keepers as when the trains are late it necessitates their keeping their premises open well into the morning.

A special meeting of the L.O.L. 1654 will be held on Thursday evening next June 18th, for the conferring of the Royal Arch degree. All the brethren are requested to attend. Refreshments will be served at the close.

If this should meet the eye of the advertiser in these columns who found a brown setter pup two months old he might be good enough to communicate either with this office or Mr. Malin, Donation Hotel who has lost a pup.

To stop any pain anywhere in 20 minutes simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache—or Pink Pain Tablets will quickly coax blood pressure away from pain centre. After that pain is gone. Headache, Neuralgia, painful periods with woman, etc, get instant help. 20 Tablets 25¢ Sold by all Dealers.

Last evening the Fire brigade were called out to an outbreak in the Sir Strathcona House. Although the brigade made an exceptionally fast turn out their services were not required—the fire being extinguished by the hotel staff.

The incomplete returns from Ontario show that the Conservative majority is that Province over liberal and independent is now 70. In the last leg of the race was 476 gross gains of crested which all went conservative a net increase of no remains...The little party in Ontario now numbers 17

The congregation of the Ellerslie church intend holding their annual picnic this year at Mr. Charles Peet's farm at the south west corner of Sandy Lake on July 1st. Dinner will be served at one o'clock and supper in the evening. Proceeds in aid of the church funds. Everybody welcome.

During the thunder shower yesterday afternoon a current struck the roof in Dugan Street school where Miss Sutherland was teaching. It lit the electric light and gave all the occupants of the room headache. None of the other rooms were affected by it. One of the children raised the alarm of fire but Miss Sutherland's presence of mind prevented any panic.

The following team will represent Strathcona to-night against Camrose in the Twilight League base ball game,

Miller catcher, McLaughlin pitcher, Ball 1st base, Hall 2nd base, Purdy short stop, Maloney 3rd base, Dobson left field, Wyllie right field and either Graham, Grant or Hall centre. The twilights have been singularly unfortunate in their weather so far.

The prisoner of Zenda will be the bill at the Strathcona Opera House on Thursday evening next for one night only. Harold Nelson the favorite Canadian actor, will appear as Rudolph Rassmuss and the king. In these two characters who resemble each other so much in looks and so little in actions, Mr. Nelson has excellent scope for his exceptional versatility. The company carry all special scenery and costumes for this play, and it is given a complete production

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My Doctor says they are safe, comfortable and many valuable hints to women, as it is free. Ask the Doctor in strictest confidence, any questions you wish answered.
